

FlexVIEW™

LED Displays

Easily view business vitals with patented LED displays.

Texas Digital™, an industry leader in visual messaging and alert communication solutions, offers FlexVIEW—the latest in real-time, network-attached LED display technology.

The FlexVIEW line of displays is a new breed of high performance, network-connected, full-matrix LED displays that deliver **increased communication speed, higher bandwidth and improved connectivity**. FlexVIEW displays connect using standard Cat 5 wiring or wireless Ethernet and support multiple mounting options for easy, flexible installation.

Features

- Patented 11-color ultra-bright LED technology.
- 160° viewing angle and anti-glare filter for optimum visibility.
- Integrated Ethernet (TCP/IP) connectivity using standard CAT 5 wiring and optional wireless capability.
- Optional serial connectivity with unique dial-up backup capability.
- Multiple mounting options for easy, flexible installation.
- Supports variable font sizes from 1.5" (3.8cm) to 6.0" (15cm).
- Supports audible tones such as .wav files.
- Provides multiple scrolling effects with rotating channels.
- Supports static and animated graphics.

FlexVIEW displays provide real-time communication via integrated Ethernet (TCP/IP) connectivity, which allows users to connect directly into an existing network **without costly installation or setup fees**. In addition, FlexVIEW displays incorporate a secondary serial connection, providing users with unique dial-up backup capability. This guarantees that **critical alerts will be displayed, even in the event of a catastrophic network failure**.

Integrated with Texas Digital's **QuickCOM Enterprise™** real-time messaging and alert communication solution, FlexVIEW displays visually deliver real-time, critical system status information from ACD systems, help desk packages, mainframes, automation packages, network-monitoring packages, ODBC databases and serial data sources to **minimize response time and maximize team effort**.

Texas Digital™

:: FlexVIEW LED Displays

Benefits

FlexVIEW LED displays have become the industry standard in high-speed visual communication. Featuring a sleek, thin profile and ultra-bright LED technology, FlexVIEW displays provide superior visual quality.

With a variety of models available to meet the different needs of contact centers, help desks and command centers, FlexVIEW LED displays enable you to:

- Respond faster to critical events.
- Improve productivity levels.
- Communicate business vitals in real time.
- Enjoy low cost of ownership.

Specifications

Model	Size (pixels)	Dimensions (inches)	Weight (lbs.)	# of Lines		Power 110 / 220 VAC (MDUs-120 VAC)
				1.5 in. 3.8 cm	2.0 in. 5.1 cm	
MDU-16	7 x 80	25.25 w x 3.5 h x 1.9 d	5	1		.33 amps
MDU-24	7 x 120	37.25 w x 3.5 h x 1.9 d	7	1		.33 amps
MDU-32	7 x 160	49.25 w x 3.5 h x 1.9 d	9	1		.65 amps
MDU-48	7 x 240	73.25 w x 3.5 h x 1.9 d	15	1		.65 amps
221	16 x 128	42.5 w x 8.9 h x 3.0 d	18	2	2	1.0 / 0.5 amps
232	16 x 192	61.7 w x 8.9 h x 3.0 d	26	2	2	1.2 / 0.6 amps
321	24 x 128	42.5 w x 11.3 h x 3.0 d	23	4	3	1.2 / 0.6 amps
332	24 x 192	61.7 w x 11.3 h x 3.0 d	33	4	3	1.4 / 0.7 amps
342	24 x 256	80.9 w x 11.3 h x 3.0 d	43	4	3	1.6 / 0.8 amps
432	32 x 192	61.7 w x 13.7 h x 3.0 d	40	5	4	1.6 / 0.8 amps
821	64 x 128	42.5 w x 27.25 h x 2.33 d	55	10	8	2.0 / 1.0 amps
842	64 x 256	80.9 w x 27.25 h x 2.33 d	105	10	8	3.0 / 1.5 amps
